Berths are allocated on the understanding that all boats are:

- 1) Insured for 3rd party cover with a reputable dinghy insurer.
- 2) The boat is securely tied down to prevent its being overturned in high winds.
- 2) The berth area is maintained in a tidy manner throughout the year.
- 3) The berth cannot be passed on upon the sale of a boat, without the express agreement of the berthing secretary.

Failure to comply with any of these conditions may lead to your being asked to vacate the berth at any time, and may invalidate your insurance.

Berths will only be allocated once boats are registered and full payment has been received by the berthing secretary.

Once allocated your berthing stickers will be available in the pocket on the main notice board in the wet bar. This sticker is your receipt and confirms your right to use the berth, it must be displayed on any boat left in your berth, either on the mast, or the transom. In such a manner as to be easily visible when the boat is in its normal parked position.
When completed please send form & payment (payable to FOSSC) to the berthing secretary.
